

NHRA CHAMPIONSHIP DRAG RACING

10267 East U.S. Hwy 136
INDIANAPOLIS, IN 46234

To :Futurefibres
Attn : Charlie Gough
From: Glen Gray
Date : November 26, 2012
Re : Parachute Tethers

Mr. Gough,

This letter is to serve as NHRA's final acceptance of Parachute Tethers submitted by Futurefibres for use in the NHRA Championship Drag Racing Series.

This acceptance is contingent upon the following criteria:

- All production units must continue to match the drawings and specifications as presented to the NHRA during the approval process.
- All units must continue to meet all applicable requirements listed in the NHRA Rule Book.

At any time should the design, functionality, configuration, dimensions/tolerances, material, weight or manufacturing process(es) of the approved component(s) change; the NHRA technical department **must** be notified in writing immediately.

NHRA rules may be added, deleted and/or amended at any time which may affect the design, configuration, dimensions/tolerances, or material of the submitted component(s). It is the team's / manufacturer's responsibility to stay abreast of all NHRA rule changes.

Regards,

A handwritten signature in black ink, appearing to read "Glen Gray", with a stylized flourish at the end.

Glen Gray
